**STATEMENT OF SUBSTANCE OF INTERVIEW UNDER 37 C.F.R. § 1.133(b)**

Mail Stop RCE  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicant thanks the Examiner for the courtesy extended to Applicant in conducting the February 20, 2008 telephone interview. The following is a summary of the substance of the interview:

Participants:

Jeff E Schwartz, Attorney of Record (Reg. No. 39,019)  
C. Gideon Korrell, Attorney of Record (Reg. No. 60,131)

U.S.P.T.O. Personnel:

Nathan W. Ha, Primary Examiner

Claims Discussed:

Claim 35  
Claim 45  
Claim 57  
Claim 58

Prior art discussed:

Vakilian reference (U.S. Patent No. 6,170,718)

Agreements Reached:

- Support for the claimed inventions, in response to Examiner's objection under 37 C.F.R. § 1.83(a), may additionally be found, for example, in Fig. 35 and Fig. 36, as well as Fig. 29 and Fig. 30.
- Independent Claims 35 and 45 as amended in response to the final Office Action may be in allowable form in view of the cited art because, for example, the Vakilian reference lacks a surface "directly beneath" an IC package to which a ball-grid array may be affixed.
- Claim 57 may be in allowable form in view of the cited art because it includes a ball-grid array "directly above" one mounted pad array which Vakilian does not show, and would further be allowable in view of the cited art if it included the claim element of Claim 58.

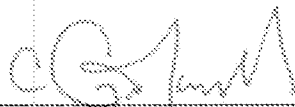

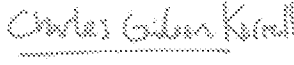

Outcome:

The Applicant discussed the likelihood of filing an RCE and the submission of supplemental amendments to Claim 57 to place all claims in allowable form.

Respectfully submitted,

Dewey & LeBoeuf LLP
